DECONTAMINATION STATEMENT

For the protection of our employees and representatives it is essential that all equipment and/or components are free of biological, chemical and/or radioactive contamination. We are only able to accept equipment and/or components that are:

- Adequately **CLEANED and DECONTAMINATED**.
- Provided with this decontamination statement, filled in and signed by an authorized person.

We appreciate your cooperation to guarantee a safe and risk-free workplace.

A. Description of equipment or component:

Description/cat. number:
Serial number:

B. Contamination/Decontamination

The equipment can be contaminated with: (Please specify here exactly the biological, chemical and/or radioactive contamination.)
